Memorandum for AFRL/IFOJ

5 January 2004

FROM: AFRL/ IFG

SUBJECT: Secrecy Order Review of Patent Application

1. I have reviewed the attached Patent Application (10615182). Per the instructions provided with the Patent I do NOT see a need for a secrecy order. I believe that this is just an improvement in technique, application and apparatus which basically are already known in the open engineering and scientific literature.

A handwritten signature in black ink, appearing to read "Brian T. Spink". The signature is fluid and cursive, with the first name "Brian" and last name "Spink" clearly distinguishable.
